

# The Pepest

## Greenpaper

**Top secret information.** So show some respect. You read about me on landing page but you don't know the details. I was created (born) in 1979 august 14 by Estonian scientists who experimented first time frog-human hybrid crossbreed. It happened to be the same day when Matt Furie was born. You know him right?

Long story short I was created with very unique abilities. I can send messages telepathically only to those who were born the same day as me. I chose Matt when I start seeing how talented artist he was/is. That's where his ideas came from.

I am still in the top secret underground labs. They will never let me out and meet physical people. Now you must be wondering how I travel around?

I can travel with my mind. I can touch, smell, taste, feel and hear everything with my mind. Don't get me wrong, Matt is a wonderful artist but he doesn't know that his creation comes from the real life experience and I want to feel different now. More real, more free speech, more alive. You have seen happy Pepe, sad Pepe, angry Pepe, relaxing Pepe, good Pepe, bad Pepe etc. These are all real human emotions what I wanted to experience through my mind travels. But I want more...

The other 3 from Boy's Club are also real and part of the scientific experiment. My room mates. But They don't have same abilities like I do.

I am 44 and my abilities only growing and growing. I want to help humanity and people. Stop poverty, stop war, stop stupidity. Give more knowledge, give more possibilities. I wanted to go to the next level. I chose at this time someone from Estonia with whom I will communicate.

My ideas are limitless. I want to share different parts of my personality and create new movement. In the labs they called me Mr. Pest.

Cryptocurrency helps me to create parallel-world.
